

Lesson 3-7B Division Equations

Solve the equations below and write the algebraic steps. The first one is done for you.

Solve	Check	Solve	Check
1. $\frac{y}{12} = 12$		2. $\frac{m}{8} = 32$	
3. $\frac{y}{7} = 13$		4. $g \div 15 = 13$	
5. $3 = x \div 8$		6. $24 = \frac{y}{7}$
